

This request is based on [this](#) post. Saltov Group has 2 teams working on AI features that will be introduced in Aspose.Pdf and Aspose.Html. Therefore we need 2 dedicated servers to perform ML tasks effectively. This request was approved by @benliwordpress in our internal blog. The details of dedicated servers are dependent on [what](#) has been chosen recently but I'm not aware of the latest information.

By reviewing the existing NDA, I found there shall be a legal admin email account like domain admin account and trademark admin account. Then once something is wrong, we can use that to receive complaints so that account can be put in various kinds of legal documents and policies, for example:

a	b	c	d
e	f	g	h
d	f	d	d
